

## Summary

UX/UI designer with over 5 years of experience in SAAS-based companies, specializing in creating user-centered designs. Thrives in high-velocity, agile environments, utilizing tools such as Asana and Azure DevOps to manage work and objectives within cross-functional scrum teams.

Experience includes collaborating with stakeholders to empathize with users and identify key areas for improvement. Leverages Figma, design thinking, and user-centered design principles to develop and iterate high-fidelity wireframes and prototypes, enhancing user workflows.

## Experience

### Buildertrend / Product Designer

Jun 2022 - Jun 2024

- Collaborated with project managers to identify key problem areas within the estimating features
- Worked with developers to navigate technical constraints to achieve high-quality product outcomes within agile environments
- Conducted user interviews using various testing methods to validate solutions from simple to complex workflows
- Consolidated user data and feedback regularly to iterate on designs and incorporate improvements into workflows
- Attended scrum team daily standups, sprint planning and ceremonies

### Buildertrend / Associate Product Designer

Jun 2020 - Jun 2022

- Created low to high-fidelity wireframes for many teams across the engineering division
- Developed web and mobile concepts and prototypes
- Redesigned and enhanced user workflows around purchase orders and financial domains

### Buildertrend / UX/UI Intern

Jun 2019 - Jun 2020

- Assisted the Senior Designer in establishing the initial in-house component design system with Figma
- Designed initial iteration of tax management feature alongside product managers

### UNMC / Design Intern

Feb 2019 - May 2019

- Worked with various UNMC faculty to design needed items for events and panels in various formats, including websites, emails, socials, and more

## Education

### University of Omaha Nebraska / Bachelor of Fine Arts

Concentration in Graphic Design

2016 - Graduated 2020

## Design Software

Figma  
Adobe XD  
Illustrator  
Photoshop  
InDesign

## Research Software

Enjoy HQ  
UserZoom GO  
Hotjar  
Mixpanel

## Management Tools

Asana  
Azure DevOps  
Trello
